## EXPERIENCE

### Mobile Application Developer

#### SNT Yazılım ve Finansal Teknolojiler A.Ş.

01/2024 - Present Istanbul

- Developed and maintained Infox mobile application, achieving **150K+ downloads** across iOS and Android platforms, alongside multiple financial solutions built with **Flutter**
- Participated actively in **end-to-end development processes** within a **20-member software engineering team**, contributing to sprint planning, backlog refinement, code reviews, and Agile ceremonies to ensure timely and high-quality delivery.
- Implemented **MVVM-S architecture with RESTful API and WebSocket** services to enable real-time trading, portfolio management, and market analysis features
- Applied advanced state management (**Cubit/BLOC**) for handling real-time data and complex UI workflows
- Integrated **Firebase** services including **Analytics, Firestore, Cloud Messaging**, and **Crashlytics** for monitoring, **notifications**, and stability tracking
- Collaborated with cross-functional teams to deliver secure and **high-performance financial applications** adopted by thousands of active users

### Hackathon Team Coordinator

#### Google Developer Student Clubs

10/2021 - 02/2024 Duzce

- Coordinated teams during **hackathons, ideathons**, and **game jams**, providing technical and **strategic mentorship** while guiding project development, time management, and rapid problem-solving.
- Led mobile development sub-teams** using and , supporting members in resolving technical issues, implementing features, and maintaining high code quality throughout the development cycle.
- Managed task** allocation and workflow organization through **Jira** and **Trello**, defining team roles, tracking progress, and ensuring smooth collaboration across all sub-teams.
- Designed team assets and presentation materials using **Canva**, and delivered training sessions on teamwork, communication, leadership, and team dynamics to strengthen members' professional readiness.

## SKILLS

|                       |                        |                  |                    |          |
|-----------------------|------------------------|------------------|--------------------|----------|
| Flutter               | Mobile App Development | Bloc             | Provider           | Riverpod |
| App Stores Deployment | Firebase Services      | MVVM-S           | RESTful API        |          |
| WebSocket             | Pixel-Perfect UI       | Flutter DevTools | Native Development |          |

## EDUCATION

### Bachelor's Degree in Computer Engineering

#### Duzce University

09/2021 - 07/2025

### Preparatory English

#### Yildiz Technical University

09/2020 - 07/2021

## SUMMARY

- Mobile Application Developer with **4 years of experience (2 years professional)**, specialized in Flutter with **4 published apps on app stores**.
- Seeking to leverage cross-platform expertise while expanding into native mobile development (**iOS/Android**) to deliver **scalable, user-focused** solutions. Also check <https://github.com/furkanagess>

## PROJECTS

### Gallery Cleaner: Swipe Photo

10/2025

<https://apps.apple.com/us/app/gallery-cleaner-swipe-photo/id6754893118>

- Clean & organize** gallery with **AI**. Remove **duplicates** and blurry shots easily.
- Swipe-to-Delete**: Swipe left to delete, right to keep – simple, fun, and fast.
- The app is powered by a **Riverpod-driven MVVM-S** architecture, built with a **native development** approach, and enhanced by seamless **RevenueCat** integration.

### Periodic Table: Learn & Play

01/2024

<https://apps.apple.com/us/app/periodic-table-learn-play/id6752439893>

- Developed a **Periodic Table learning app** that provides detailed information about elements and includes a **Quiz section to support** faster and more effective learning
- Integrated **Firebase Messaging** for push notifications
- Applied **Provider** for state management

### SpookyAI: Halloween Image Gen

10/2025

<https://apps.apple.com/us/app/spookyai-halloween-image-gen/id6753217831>

- AI-powered** Halloween image generator that transforms **prompts** or images into spooky, cinematic **Halloween art**
- Exclusive prompts and fast generation using **Fal.ai** and **Stability.ai**.

### Quicko - Minigames

08/2025

<https://apps.apple.com/us/app/quicko-minigames/id6751204576>

- Built Quicko, a cross-platform **Flutter** app featuring **10+ casual minigames**, **10+ language support**, and **global leaderboards** for competitive gameplay
- Implemented with **AdMob** for monetization, **Lottie** for interactive animations, and **Git** for **version control**; also applied **110n localization** for multi-language support
